Current Residence: Muscat, Sultanate of Oman

PROFESSIONAL SUMMARY

I'm a Second year student in the IIT Madras BSc Degree Program with foundational experience Analysis, web application development, business data management and reporting. I'm currently learning Data Analytics and building my foundation in SQL, Excel, Power BI, and Python through practice projects and continuous learning. I'm open to connecting with others in the field, sharing ideas, and learning from real-world experiences. I'm also actively looking for internship opportunities or beginner-friendly opportunities where I can apply my skills and gain hands-on experience in the field and grow as a data analyst.

EDUCATION

- Diploma in Programming, IITM (September 2025)
- Advanced Certificate in Application Development, IITM (September 2025)
- Foundational certificate in Programming and Data Science, IITM CODE (December 2024)
- Class 12: Commerce with Informatics Practices, CBSE (87%)
- Class 10, CBSE (85.4%)
- Certifications Proof: <https://drive.google.com/drive/folders/19yP-JL2yg9G853JNvzONd0mdFn7g0Qsi?usp=sharing>

SKILLS & STRENGTHS

- Programming and Database: SQL, Python, JavaScript (Basics), SQLite, PostgreSQL.
- Data & Analytics: Excel (Data Cleaning, Pivot Tables, Charts & Data Visualizations)
- Power BI and Tableau dashboard basics
- Web Technologies: MVC Architecture, Flask, HTML & Bootstrap.
- Proficient in MS PowerPoint and MS Word.
- Quick learner with strong interest in business-tech hybrid roles.
- Interested in Business Analytics & Data Analytics.

DATA ANALYTICS PROJECTS

1. Business Data Management Project

- Collected, cleaned and analyzed real-world business data using MS Excel.
- Created charts, visualizations and pivot tables in MS Excel.
- Created business report in MS Word and created business presentation in MS PowerPoint.
- Generated meaningful business insights and recommendations from collected data.
- **Business Project:** <https://drive.google.com/drive/folders/13tQmkT8Hxqlrnay4a-P6mcJHVpAsabJO?usp=sharing>

2. E-commerce Data Analysis using SQL

- Performed structured SQL analysis on a real-world e-commerce dataset.
- Wrote queries using join, aggregations and filtering techniques.
- Extracted insights on customer behavior, orders and sales patterns.
- **SQL Project:** <https://drive.google.com/file/d/1rRc9eXdmhnnRuvHtQfQwUSRDbz25sDaH/view?usp=drivesdk>

3. Pizza Sales Analysis Interactive Dashboard (Power BI)

4. HR Analytics Interactive Dashboard (Power BI)

5. E-commerce Dashboard (Excel)

(View all on my online Portfolio)

SOFTWARE/ WEB DEVELOPMENT PROJECTS

6. Web Application Project using Flask and Jinja2 Templating

- Developed a web application using Flask, Python and SQLite following MVC architecture.
- Worked with routing, templates using HTML5, backend logic using Flask and Python, and frontend integration.
- Built responsive interfaces using Bootstrap.
- Understood application structure and backend & frontend interaction and designed frontend pages.
- **GitHub (College Project-1):** <https://github.com/23f1000224/quiz-master-v1>
- **Project Demonstration Video And Project Report:** [Click here to view](#)

7. Interactive Web App Project using Flask and JavaScript

- Built a dynamic web application using AI assistance with frontend interaction using JavaScript & VueJS.
- Worked with UI behavior and integration between frontend and backend.
- Gained exposure to modern web development concepts.
- **GitHub (College Project-2):** <https://github.com/23f1000224/quiz-master-app-v2>
- **Project Demo Video and Report:** [Click here to view](#)
